

# Financial Systems Consultant

---

## Job description

### Your new job

Our team of consultants helps our clients solve their issues, create value, support capability and growth, and improve their performance. You will build your industry experience and business skills to identify, clarify and confirm a problem before helping create and implement a solution relevant to the client's needs. In addition to providing objective advice, expertise and specialist skills in accounting and business.

### Why should you be interested

Your key position will see you engage with clients, focusing on their core business needs and delivering business benefits that exceed expectations. You will be consulting in the areas of Accounting and Enterprise Resources Planning (ERP) processes ensuring business and technical objectives are met. Above all, you will have the chance to build lasting relationships and see your clients flourish through the advice and support you are able to provide.

### What is in it for you?

- A dynamic team environment working with inspiring colleagues
- Personal growth and development opportunities
- Occasional interstate travel
- Free parking at our central Canberra office in Deakin

### Your new employer

Accsys Consulting clients include a vast range of industry sectors from Medical Services to Government agencies, Clubs to Construction. Accsys Consulting builds lasting partnerships with clients through innovative professional services based on progressive products, business process knowledge and financial depth.

### Desired Skills and Experience

- Excellent interpersonal communication and presentation skills to present complex ideas to technical and non-technical audiences
- Drive and passion for delivering clients results and outcomes beyond expectations
- Excellent problem solving skills with the ability to analyse a situation and propose new solutions
- Enthusiasm to drive own activities and as part of a larger team
