Job description

Graduate (or near graduate) Systems Consultant

12 month contract with view to permanency

Hours:

Graduate: Full Time– 9 – 5:30 Monday to Friday

Near graduate: Part time structured around study timetable

Competitive salary

Immediate start

Your new job

Our team of consultants helps clients solve their issues, create value, support capability and growth, and improve their performance. You will use your problem solving and communication skills to assist in identifying, clarifying and confirming a problem before helping create and implement a solution relevant to the client's needs.

Why should you be interested?

Your position will see you engage with clients, focusing on their core business needs and delivering business benefits that exceed expectations. Above all, you will have the chance to build lasting relationships and see your clients flourish through the advice and support you are able to provide.

What is in it for you?

- A dynamic team environment working with inspiring colleagues
- Personal growth and development opportunities
- Competitive salary
- Occasional interstate travel
- Free parking at our central Canberra office in Deakin

Your new employer

Accsys Consulting is a Canberra based company established in 1992 to provide specialist financial management and information technology consulting services to public and private sector organisations. Accsys Consulting clients include a vast range of industry sectors from Medical Services to Government agencies, Conferencing to Construction. Accsys Consulting builds lasting partnerships with clients through innovative professional services based on progressive products, business process knowledge and financial depth.
